IMPACT RESISTANCE 08

COST BENEFIT 09

DESIGN FREEDOM 10

CASEMENT WINDOWS & DOORS

This System is designed for more strength and better performance with twin gasket sealing. This gasket sealing coupled with multi point lock ensures tight closure with no gaps for proper sealing, thermal & acoustic performance. Thicker Mullion profiles with reinforcements ensures sturdiness against heavy wind load. Our mullions and transoms with external strengthening bars ensures that we can design large size windows with required wind load.

SLIDING DOOR WITH
DOUBLE SIDE FIXED

TRIPLE SLIDING

FOUR SLIDING

SLIDING FIXED SLIDING

DOUBLE SLIDING

For Opening Windows

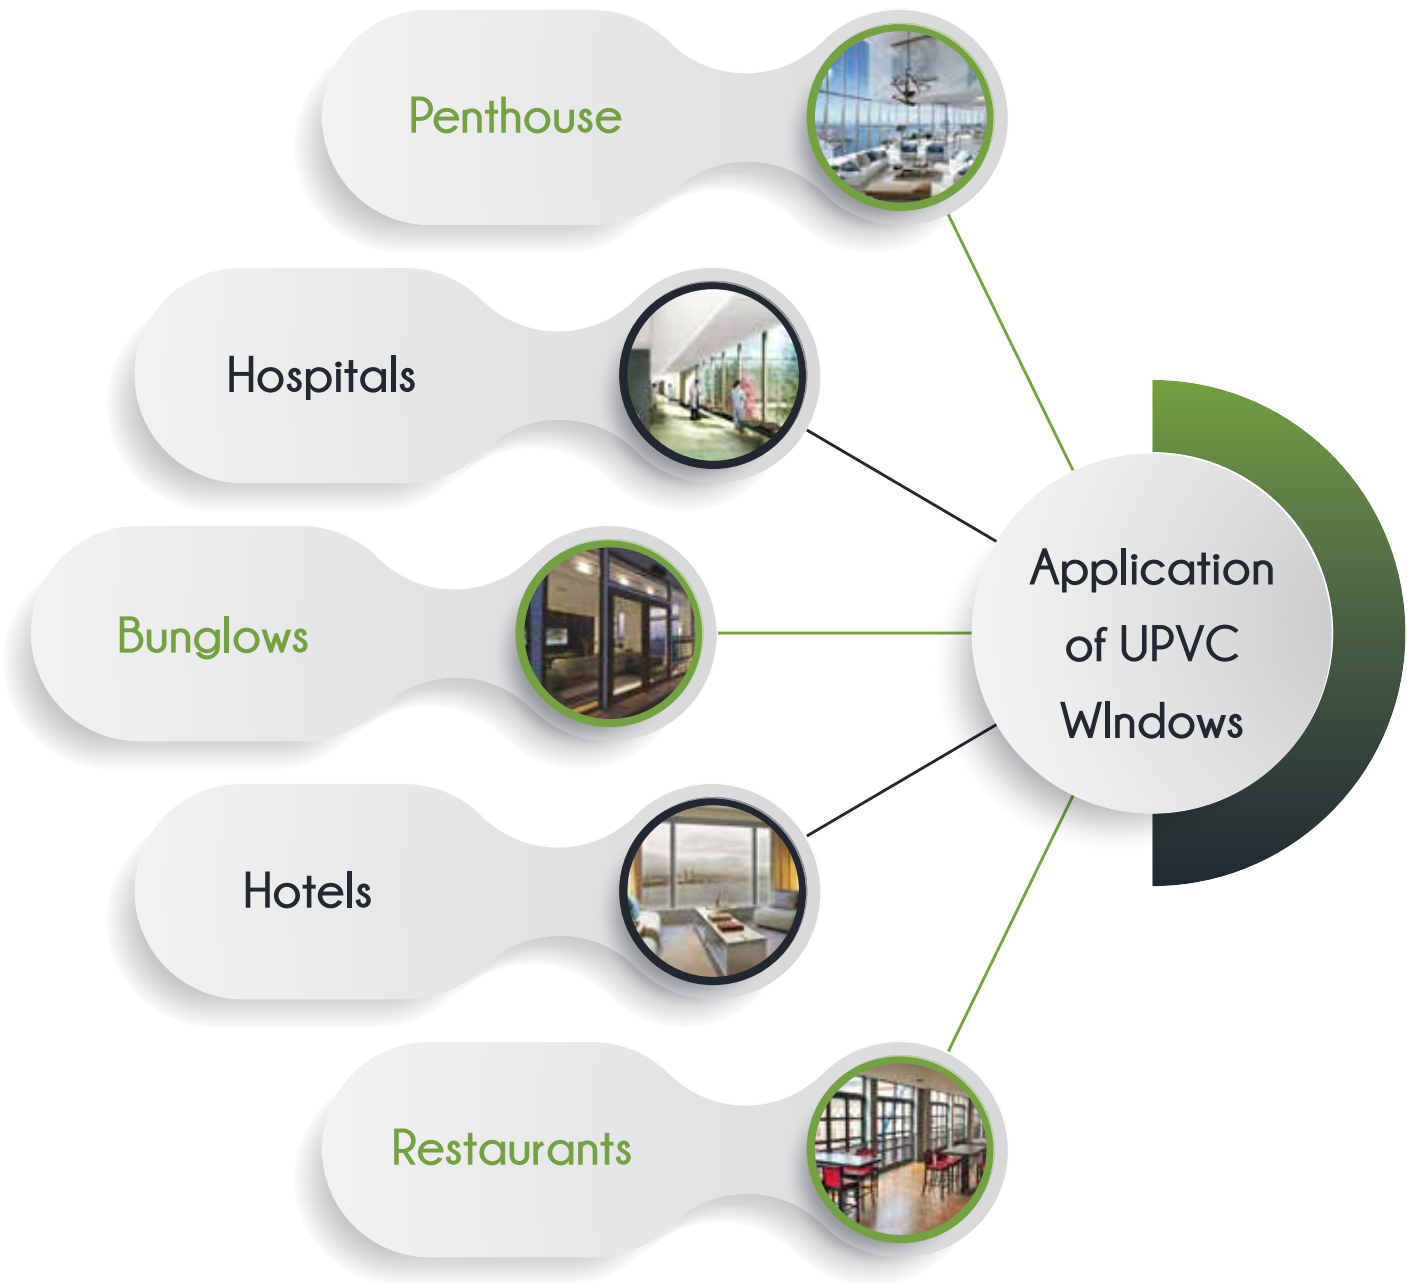

With Bug Mesh

For Sliding Door

Sliding Windows work with the “ Ride over ” mechanism. Made up of two (or more) shutters that slide to the left and right horizontally on tracks, the windows can be made wider and taller with the addition of shutters. Sliding Windows comes with an option of bug screen in a separate track.
